- German (A2)

Personal Skills

- Teamwork & Effective Communication
- Time Management
- Rigour and Sense of Responsibility

Education

- Udemy**
With a strong foundation built through in-depth courses on the Udemy online learning platform, I have dedicated time and commitment to honing my skills in development and design.
- Advanced Technician's Certificate** 2020 - 2022
Holding a Higher Technician Certificate (BTS) following a two-year training program, I specialized in the design and management of IT systems and networks
- Jaber Ibn Hayyan** 2019 - 2020
As a high school graduate with a scientific background, I have strengthened my analytical skills, foundational science knowledge, and technical and scientific competencies.

Professional Experience

- Full Stack .NET Developer** April 2025 – Present
DigiScreen
 - Design, development, and maintenance of high-performance .NET Full Stack applications dedicated to point of sale (POS) solutions and centralized order management.
 - Active participation in the strategic migration of a POS application from Xamarin to .NET MAUI, with redesign and modernization of the architecture.
 - Technical contribution to the seamless integration of Deliveroo and Uber Eats with POS systems for real-time order retrieval and management.
 - Design of a centralized Cloud Dashboard and intensive use of Microsoft Azure for data storage and processing. Migration of the Kitchen Display System (KDS) from Xamarin to a modern cloud architecture.
 - Development of a dedicated delivery driver dashboard and integration of robust REST APIs. Use of Entity Framework Core, DevExpress, Syncfusion, as well as DevOps tools (GitHub, Jenkins, Portainer).
- Full Stack .NET Developer** 15/07/2024 - 04/02/2025
EasySoft
 - Designed, developed, and fully customized a robust C# .NET-based ERP system tailored to clients' specific needs.
 - Managed, optimized, and maintained relational databases to ensure data integrity and high availability.
 - Writing complex queries and stored procedures, and developing dynamic, custom SAP reports.
 - Providing first-line technical support and guiding clients through software adoption with tailored training.
 - Collaborating closely with functional teams to analyze business requirements and translate them into high-performance software solutions.

Technical Skills

Front-End & Web :

WordPress, HTML5, CSS3, JavaScript,
React

Back-End & Development :

C#, Java, PHP, .NET 6, .NET 8, .NET 10

API & Data Access :

REST API, Entity Framework / Entity
Framework Core, MySQL

Frameworks & Technologies :

.NET MAUI, Xamarin, Syncfusion,
DevExpress

DevOps & Development Tools :

GitHub, Jenkins, Portainer

Design & Multimedia :

Adobe Photoshop, Adobe Illustrator,
Adobe Premiere Pro, Adobe After Effects

Office & Systems

Outils bureautiques, systèmes
d'exploitation

WordPress Developer and Designer

First Mark

01/01/2024 - 30/04/2024

- Built, developed, and optimized a fully responsive e-commerce website.
- Managed dynamic content, integrated product catalogs, and enhanced the overall user experience (UX/UI).
- Designed, launched, tracked, and optimized targeted advertising campaigns on Meta and TikTok.

WordPress Developer and Designer

Gadgoyo

01/09/2023 - 31/12/2023

- Built and configured an end-to-end e-commerce website, handling product integration and media sourcing.
- Managed overall content and spearheaded marketing and advertising campaigns on Meta and TikTok.

Design Intern

2MAG Agence Digitale

01/06/2023 - 30/07/2023

- Created visuals and brand identities for diverse clients (digital and print media), including logo design and comprehensive branding.
- Contributed directly to the agency's flagship projects, notably 'Ligno' and 'Uper Ceramic'.

PROJETS PERSONNELLES

• Full Stack .NET Developer

- Developed a mobile application for fitness activity management and tracking.
- Frontend: .NET MAUI
- Backend: .NET REST API
- Database: SQL Server
- Established seamless communication between the mobile application, the REST API, and the database.

• Full Stack .NET Developer

- Developed an e-commerce platform for online product management and presentation.
- Frontend: ASP.NET Razor Pages
- Backend: .NET REST API
- Database: SQL Server
- Implemented core business logic and API-driven communication with the database.

• Full Stack .NET Developer

- Developed a web application dedicated to travel planning and organization.
- Frontend: React
- Backend: .NET REST API
- Database: SQL Server
- Managed data flow and established seamless communication between the React frontend and the backend via REST API.
